

WEEDS, WEEDS, WEEDS

Spring is here = LOTS OF WEEDS!!!

Do It Yourself

OR

+

If you are a DIY'r the best way to get kill lawn weeds is a 2 part process:

1. Spray your lawn with a liquid weed killer (Bayer or Ortho work well).
2. While your lawn is still wet, follow up with a granular Fertilizer/Weed killer (Scotts works well). The lawn needs to be wet for the granules to stick to the weeds. This should lead to a weed free lawn!!

For Hire

If you prefer to hire someone, here are some recommended companies residents in the neighborhood currently use

Green Pastures 781-2077
Enrique 582-4898
Tony's Lawn Care 828-8900
Tru-Green 866-301-1088
Turfmasters 693-8838
